

SCSD TRANSPORTATION NEWS

Dear Parents and Guardians:

I would like to welcome you and your student to a new school year! We are happy to be a part of your student's school experience and it all starts with transportation! In an effort to maintain safe and efficient transportation for our students, we will need your partnership. Transportation may come in the way of a school bus or walking to and from school.

For students that are taking a bus to school, there may be situations where your student needs your assistance on and off the school bus. To ensure that this process goes smoothly, we are asking that you be at your child's stop 10 minutes prior to the scheduled pick up and drop off time. We would also encourage a healthy and professional relationship with our bussing companies. We have provided business contact numbers for your reference in case you have questions on bus information. They are best equipped to give you timely information regarding bus location and other important information about your child's bussing. Please do not hesitate to call the Transportation Department if you feel that it is necessary.

If your student walks to school, by walking with them to and from school, you can familiarize them with the neighborhood, teach them about traffic signs, street signs, directions, and model correct behaviors when crossing streets. It's also a great opportunity for some chat time with your kids!

This year, you will be receiving a seasonal newsletter from our team. It will provide you with useful tips, important announcements and items of interest. The Transportation Department will also be updating their webpages with easy-to-find information!

Regards,

Al Valachovic

Transportation Supervisor
